Full Clean Driver's License. Over 21 for insurance purposes.

I've been passionate about film since my early teens, logging over 1500 films watched on the *Letterboxd* website. I pursued my interest through studying Media at sixth form college and Digital Film Technologies at university. I have a particular interest in working in the editing and camera departments and practised these skills in all my student projects. I am keen to gain experience in all aspects of film production.
